

## Launch of the HB Project

---

**Oegstgeest, 7 December 2006 - Dutch entrepreneurs start unique project for unforgettable experiences across Europe.**

The **HB Experience** is about adventure, breathtaking sceneries, culture, romance, luxury and good manners. But most of all it's about enjoying life. The Huet Brothers call this the original spirit. This spirit is also built around an especially designed car, the **HB Special**. Whilst driving this car exclusive places and hidden gems will be visited to support the unforgettable experience.

The **HB Special**, which will be handmade in a limited version of 12 cars, is a Barchetta-styled car, that evokes memories of the Mille Miglia, Targa Florio and Le Mans racers from the mid '50s. The concept and design are geared to provide a unique event even for the stringent demands of an experienced classic car connoisseur.

The **HB Experience** and the **HB Special** have been developed by Paul and Tino Huet from Huet Brothers. Starting in 2008, the HB Experience will travel through 12 different regions across Europe, including Spain, France, England, Wales, Scotland, Norway, Sweden, Germany, Switzerland, Austria and Italy.
